TECHNICAL PARAMETER

Disc Lathe:

Maximum brake disc thickness	40mm
Maximum disk diameter	500mm
Adjustment knob accuracy	0.005mm
Feed rate	8.5mm/min
Electrical specifications	220V
Net weight	6.5kg

Drive Unit

Working height min / max	1 / 1.25m
Drive speed	98rpm
Electrical specifications	220V
Weight	85kg
Ambient temperature range	-5°C to 35°C
Turning accuracy	≤ 0.005mm
Brake disc runout	≤ 0.005mm
Brake disc thickness variation	0.005 – 0.01mm
Brake disc surface roughness	Ra 1.5 – 2.0um

MOBILE Brake disk skimmer

MODEL:CPG-BL602
